

TORONTO INTERNATIONAL CONFERENCE ON QUALITY IN PRIMARY CARE IMPROVING HEALTH EQUITY

Saturday, November 16, 2019

Location

Westin Harbour Castle Hotel
Harbour Ballroom
Toronto, Canada

Conference Description

Join participants from around the world to discuss how primary care can best address the social determinants of health and promote health equity. Equity is the oft forgotten 6th domain of quality. Yet our conference will highlight how making strides in achieving the Triple Aim - improving population health and patient experience while reducing or maintaining cost - requires us to take a health equity approach.

This Group Learning program has been certified by the College of Family Physicians of Canada and the Ontario Chapter for up to 5.50 Mainpro+ credits.

Conference Objectives

After active engagement in this conference, participants will be better able to:

1. Define factors which impact health equity including income, race and social position
2. Identify and address social determinants of health for patients and communities
3. Build collaborations between primary care and the community to improve services in impoverished areas to positively impact health
4. Develop opportunities to improve Indigenous health

Registration Fees

All prices are listed in USD.

\$250 for physicians

\$200 for non-physicians

\$150 for residents/students
